

Optimized. On-Time. Safe and Sound.

First Transportation Solutions partners with you to solve your routing, maintenance, and safety challenges. As a seamless extension of your transportation team, our experts deliver custom-designed solutions specific to your student transportation goals and needs.

**Routing
Solutions**

Evaluate. Execute. Enable.

School bus routing can be a stressful and time-consuming task for many districts. We can help. Efficient and effective routing is the foundation for a successful student transportation program. Our routing experts analyze and model various bell time, ridership and capacity scenarios that allow districts to make strategic decisions which maximize resources and provide the best home-to-school experience for your students.
