

ROUTING SOLUTIONS

Optimized. On-Time. Safe and Sound.

With over 25 years of experience, our routing team delivers tailored, community-specific solutions to school districts nationwide. Our specialists manage daily routing for more than 30,000 school buses annually, while our consulting experts conduct sophisticated analyses of bell times, tier systems, and capacity scenarios to optimize resource allocation.

This dual approach combines operational excellence with strategic planning, resulting in unparalleled efficiency and cost-effectiveness.

Evaluate: Expert Analysis of Routing Capabilities

- Comprehensive assessment of personnel, processes, and systems
- In-depth routing system analysis for cost optimization
- Strategic bell time evaluation for improved efficiency

Execute: Implementation of Efficient Routing Solutions

- Route-to-Ridership: Precision routing based on actual ridership data
- System Modernization: Updating outdated systems and digital mapping
- New System Integration: Seamless implementation with Student Information Systems
- Continuous Route Management: Full-service maintenance and optimization

Enable: Dedicated Support and Training

- Customized on-site and virtual training programs for all skill levels
- Specialized workshops on advanced routing topics
- 7-day support via phone and email for immediate assistance
- Expert guidance across major platforms (Edulog, Versatrans, Transfinder, etc.)
