

TRANSPORTATION MANAGEMENT

Providing the Most Critical Elements of Your District's Transportation Department

First Services brings unparalleled expertise to district transportation management, leveraging our extensive experience overseeing more than 450 student transportation departments across North America.

Our comprehensive approach goes beyond mere logistics, encompassing strategic planning, operational efficiency, and a steadfast commitment to student safety and satisfaction.

Transportation Managers

First Services will provide a dedicated team leader for your district. This critical role will be filled by a First Services employee, working at your district, focused on all day-to-day operations, as well as customer service, metrics, safety, analytics, and reporting.

Customer Service Managers

We solve customer service challenges by providing management with communication and problem solving skills. This team member's role will be customized to the needs of your day to day operations, including capturing and promptly resolving local issues for your district.

Tailored Management Solutions

Our tailored transportation management solutions seamlessly integrate cutting-edge technology, data-driven decision-making, and industry best practices to optimize routes, reduce costs, and enhance overall service quality.

Whatever your transportation management challenge is, First Services can provide a solution to meet your needs.
