

## Quick start guide for parents and caregivers

Use this simple step-by-step guide to get started with First View, our easy-to-use, GPS tracking app that helps you stay connected to your student's transportation. With First View, you can track trips in real-time and receive important alerts about your student's trips to and from school.

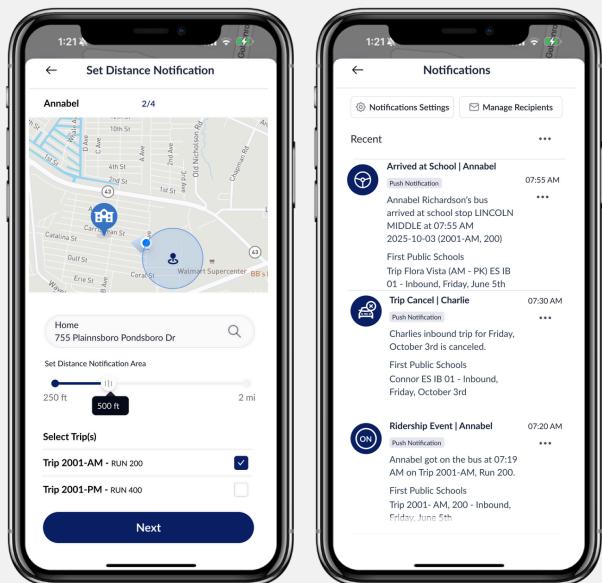

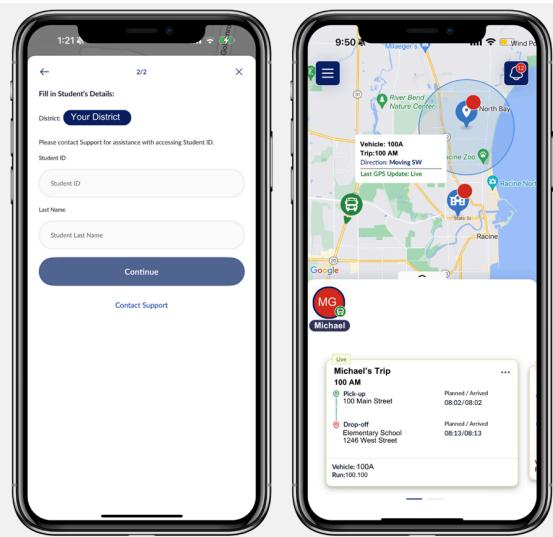

### Set up your account

Download the First View app from the App Store or Google Play, or visit [myfirstview.com](http://myfirstview.com) to **create an account**. Be sure to **allow notifications** and **turn on location services** so you can receive bus alerts.

Tap the **+** sign on the map to **add your student**. You will be asked to enter your:

- **District code**
- **Student's ID**
- **Student's last name**

Once added, your student's trip information will **connect automatically** and you're ready to **track the bus**!

### Set up custom notifications

To add notifications for when the bus is getting close to your student's stop, tap **Set Notifications** on the map or go to **Notification Settings** in the menu.

- You can set up to **3 notification zones** per trip
- Customize when and how you're notified by choosing the **location**, **distance**, and **time**
- **Receive alerts in app or as push notifications** as the bus enters the notification zone

You can also receive notifications by **email** and **share them with others** who help care for your student.

- Tap the **notification bell** and select **Manage Recipients**
- Add up to **10 family members or caregivers**

### Helpful tips

- View student details, access account info, customize notification settings, and get help in the menu
- Add another student, see today's bus trips, and view notifications from the map home screen
