All routes are subject to change

This is your standard schedule. You must obtain written authorization if you work longer and want to be paid. Permanent changes resulting from added or dropped stops, or re-routing should be reported so your schedule can be changed. Show up time is your report time. Pre trip is standard allowance for inspecting and readying your bus. Live Route Time is measured from when you leave the lot, until you make your last drop off. Return time is driving back to the lot. End of shift is your scheduled clock out time.

All routes are subject to change

This is your standard schedule. You must obtain written authorization if you work longer and want to be paid. Permanent changes resulting from added or dropped stops, or re-routing should be reported so your schedule can be changed. Show up time is your report time. Pre trip is standard allowance for inspecting and readying your bus. Live Route Time is measured from when you leave the lot, until you make your last drop off. Return time is driving back to the lot. End of shift is your scheduled clock out time.

All routes are subject to change

This is your standard schedule. You must obtain written authorization if you work longer and want to be paid. Permanent changes resulting from added or dropped stops, or re-routing should be reported so your schedule can be changed. Show up time is your report time. Pre trip is standard allowance for inspecting and readying your bus. Live Route Time is measured from when you leave the lot, until you make your last drop off. Return time is driving back to the lot. End of shift is your scheduled clock out time.

All routes are subject to change

This is your standard schedule. You must obtain written authorization if you work longer and want to be paid. Permanent changes resulting from added or dropped stops, or re-routing should be reported so your schedule can be changed. Show up time is your report time. Pre trip is standard allowance for inspecting and readying your bus. Live Route Time is measured from when you leave the lot, until you make your last drop off. Return time is driving back to the lot. End of shift is your scheduled clock out time.

All routes are subject to change

This is your standard schedule. You must obtain written authorization if you work longer and want to be paid. Permanent changes resulting from added or dropped stops, or re-routing should be reported so your schedule can be changed.

Show up time is your report time. Pre trip is standard allowance for inspecting and readying your bus. Live Route Time is measured from when you leave the lot, until you make your last drop off. Return time is driving back to the lot. End of shift is your scheduled clock out time.

All routes are subject to change

This is your standard schedule. You must obtain written authorization if you work longer and want to be paid. Permanent changes resulting from added or dropped stops, or re-routing should be reported so your schedule can be changed. Show up time is your report time. Pre trip is standard allowance for inspecting and readying your bus. Live Route Time is measured from when you leave the lot, until you make your last drop off. Return time is driving back to the lot. End of shift is your scheduled clock out time.

All routes are subject to change

This is your standard schedule. You must obtain written authorization if you work longer and want to be paid. Permanent changes resulting from added or dropped stops, or re-routing should be reported so your schedule can be changed. Show up time is your report time. Pre trip is standard allowance for inspecting and readying your bus. Live Route Time is measured from when you leave the lot, until you make your last drop off. Return time is driving back to the lot. End of shift is your scheduled clock out time.

All routes are subject to change

This is your standard schedule. You must obtain written authorization if you work longer and want to be paid. Permanent changes resulting from added or dropped stops, or re-routing should be reported so your schedule can be changed.

Show up time is your report time. Pre trip is standard allowance for inspecting and readying your bus. Live Route Time is measured from when you leave the lot, until you make your last drop off. Return time is driving back to the lot. End of shift is your scheduled clock out time.

All routes are subject to change

This is your standard schedule. You must obtain written authorization if you work longer and want to be paid. Permanent changes resulting from added or dropped stops, or re-routing should be reported so your schedule can be changed. Show up time is your report time. Pre trip is standard allowance for inspecting and readying your bus. Live Route Time is measured from when you leave the lot, until you make your last drop off. Return time is driving back to the lot. End of shift is your scheduled clock out time.

All routes are subject to change

This is your standard schedule. You must obtain written authorization if you work longer and want to be paid. Permanent changes resulting from added or dropped stops, or re-routing should be reported so your schedule can be changed. Show up time is your report time. Pre trip is standard allowance for inspecting and readying your bus. Live Route Time is measured from when you leave the lot, until you make your last drop off. Return time is driving back to the lot. End of shift is your scheduled clock out time.

All routes are subject to change

This is your standard schedule. You must obtain written authorization if you work longer and want to be paid. Permanent changes resulting from added or dropped stops, or re-routing should be reported so your schedule can be changed. Show up time is your report time. Pre trip is standard allowance for inspecting and readying your bus. Live Route Time is measured from when you leave the lot, until you make your last drop off. Return time is driving back to the lot. End of shift is your scheduled clock out time.

All routes are subject to change

This is your standard schedule. You must obtain written authorization if you work longer and want to be paid. Permanent changes resulting from added or dropped stops, or re-routing should be reported so your schedule can be changed.

Show up time is your report time. Pre trip is standard allowance for inspecting and readying your bus. Live Route Time is measured from when you leave the lot, until you make your last drop off. Return time is driving back to the lot. End of shift is your scheduled clock out time.

All routes are subject to change

This is your standard schedule. You must obtain written authorization if you work longer and want to be paid. Permanent changes resulting from added or dropped stops, or re-routing should be reported so your schedule can be changed. Show up time is your report time. Pre trip is standard allowance for inspecting and readying your bus. Live Route Time is measured from when you leave the lot, until you make your last drop off. Return time is driving back to the lot. End of shift is your scheduled clock out time.

All routes are subject to change

This is your standard schedule. You must obtain written authorization if you work longer and want to be paid. Permanent changes resulting from added or dropped stops, or re-routing should be reported so your schedule can be changed.

Show up time is your report time. Pre trip is standard allowance for inspecting and readying your bus. Live Route Time is measured from when you leave the lot, until you make your last drop off. Return time is driving back to the lot. End of shift is your scheduled clock out time.

All routes are subject to change

This is your standard schedule. You must obtain written authorization if you work longer and want to be paid. Permanent changes resulting from added or dropped stops, or re-routing should be reported so your schedule can be changed.

Show up time is your report time. Pre trip is standard allowance for inspecting and readying your bus. Live Route Time is measured from when you leave the lot, until you make your last drop off. Return time is driving back to the lot. End of shift is your scheduled clock out time.

All routes are subject to change

This is your standard schedule. You must obtain written authorization if you work longer and want to be paid. Permanent changes resulting from added or dropped stops, or re-routing should be reported so your schedule can be changed. Show up time is your report time. Pre trip is standard allowance for inspecting and readying your bus. Live Route Time is measured from when you leave the lot, until you make your last drop off. Return time is driving back to the lot. End of shift is your scheduled clock out time.

All routes are subject to change

This is your standard schedule. You must obtain written authorization if you work longer and want to be paid. Permanent changes resulting from added or dropped stops, or re-routing should be reported so your schedule can be changed. Show up time is your report time. Pre trip is standard allowance for inspecting and readying your bus. Live Route Time is measured from when you leave the lot, until you make your last drop off. Return time is driving back to the lot. End of shift is your scheduled clock out time.

All routes are subject to change

This is your standard schedule. You must obtain written authorization if you work longer and want to be paid. Permanent changes resulting from added or dropped stops, or re-routing should be reported so your schedule can be changed. Show up time is your report time. Pre trip is standard allowance for inspecting and readying your bus. Live Route Time is measured from when you leave the lot, until you make your last drop off. Return time is driving back to the lot. End of shift is your scheduled clock out time.

All routes are subject to change

This is your standard schedule. You must obtain written authorization if you work longer and want to be paid. Permanent changes resulting from added or dropped stops, or re-routing should be reported so your schedule can be changed. Show up time is your report time. Pre trip is standard allowance for inspecting and readying your bus. Live Route Time is measured from when you leave the lot, until you make your last drop off. Return time is driving back to the lot. End of shift is your scheduled clock out time.

All routes are subject to change

This is your standard schedule. You must obtain written authorization if you work longer and want to be paid. Permanent changes resulting from added or dropped stops, or re-routing should be reported so your schedule can be changed. Show up time is your report time. Pre trip is standard allowance for inspecting and readying your bus. Live Route Time is measured from when you leave the lot, until you make your last drop off. Return time is driving back to the lot. End of shift is your scheduled clock out time.

All routes are subject to change

This is your standard schedule. You must obtain written authorization if you work longer and want to be paid. Permanent changes resulting from added or dropped stops, or re-routing should be reported so your schedule can be changed. Show up time is your report time. Pre trip is standard allowance for inspecting and readying your bus. Live Route Time is measured from when you leave the lot, until you make your last drop off. Return time is driving back to the lot. End of shift is your scheduled clock out time.

All routes are subject to change

This is your standard schedule. You must obtain written authorization if you work longer and want to be paid. Permanent changes resulting from added or dropped stops, or re-routing should be reported so your schedule can be changed.

Show up time is your report time. Pre trip is standard allowance for inspecting and readying your bus. Live Route Time is measured from when you leave the lot, until you make your last drop off. Return time is driving back to the lot. End of shift is your scheduled clock out time.

All routes are subject to change

This is your standard schedule. You must obtain written authorization if you work longer and want to be paid. Permanent changes resulting from added or dropped stops, or re-routing should be reported so your schedule can be changed. Show up time is your report time. Pre trip is standard allowance for inspecting and readying your bus. Live Route Time is measured from when you leave the lot, until you make your last drop off. Return time is driving back to the lot. End of shift is your scheduled clock out time.

All routes are subject to change

This is your standard schedule. You must obtain written authorization if you work longer and want to be paid. Permanent changes resulting from added or dropped stops, or re-routing should be reported so your schedule can be changed. Show up time is your report time. Pre trip is standard allowance for inspecting and readying your bus. Live Route Time is measured from when you leave the lot, until you make your last drop off. Return time is driving back to the lot. End of shift is your scheduled clock out time.

All routes are subject to change

This is your standard schedule. You must obtain written authorization if you work longer and want to be paid. Permanent changes resulting from added or dropped stops, or re-routing should be reported so your schedule can be changed. Show up time is your report time. Pre trip is standard allowance for inspecting and readying your bus. Live Route Time is measured from when you leave the lot, until you make your last drop off. Return time is driving back to the lot. End of shift is your scheduled clock out time.

All routes are subject to change

This is your standard schedule. You must obtain written authorization if you work longer and want to be paid. Permanent changes resulting from added or dropped stops, or re-routing should be reported so your schedule can be changed.

Show up time is your report time. Pre trip is standard allowance for inspecting and readying your bus. Live Route Time is measured from when you leave the lot, until you make your last drop off. Return time is driving back to the lot. End of shift is your scheduled clock out time.

All routes are subject to change

This is your standard schedule. You must obtain written authorization if you work longer and want to be paid. Permanent changes resulting from added or dropped stops, or re-routing should be reported so your schedule can be changed. Show up time is your report time. Pre trip is standard allowance for inspecting and readying your bus. Live Route Time is measured from when you leave the lot, until you make your last drop off. Return time is driving back to the lot. End of shift is your scheduled clock out time.

All routes are subject to change

This is your standard schedule. You must obtain written authorization if you work longer and want to be paid. Permanent changes resulting from added or dropped stops, or re-routing should be reported so your schedule can be changed. Show up time is your report time. Pre trip is standard allowance for inspecting and readying your bus. Live Route Time is measured from when you leave the lot, until you make your last drop off. Return time is driving back to the lot. End of shift is your scheduled clock out time.

All routes are subject to change

This is your standard schedule. You must obtain written authorization if you work longer and want to be paid. Permanent changes resulting from added or dropped stops, or re-routing should be reported so your schedule can be changed. Show up time is your report time. Pre trip is standard allowance for inspecting and readying your bus. Live Route Time is measured from when you leave the lot, until you make your last drop off. Return time is driving back to the lot. End of shift is your scheduled clock out time.

All routes are subject to change

This is your standard schedule. You must obtain written authorization if you work longer and want to be paid. Permanent changes resulting from added or dropped stops, or re-routing should be reported so your schedule can be changed.

Show up time is your report time. Pre trip is standard allowance for inspecting and readying your bus. Live Route Time is measured from when you leave the lot, until you make your last drop off. Return time is driving back to the lot. End of shift is your scheduled clock out time.

All routes are subject to change

This is your standard schedule. You must obtain written authorization if you work longer and want to be paid. Permanent changes resulting from added or dropped stops, or re-routing should be reported so your schedule can be changed.

Show up time is your report time. Pre trip is standard allowance for inspecting and readying your bus. Live Route Time is measured from when you leave the lot, until you make your last drop off. Return time is driving back to the lot. End of shift is your scheduled clock out time.

All routes are subject to change

This is your standard schedule. You must obtain written authorization if you work longer and want to be paid. Permanent changes resulting from added or dropped stops, or re-routing should be reported so your schedule can be changed. Show up time is your report time. Pre trip is standard allowance for inspecting and readying your bus. Live Route Time is measured from when you leave the lot, until you make your last drop off. Return time is driving back to the lot. End of shift is your scheduled clock out time.

All routes are subject to change

This is your standard schedule. You must obtain written authorization if you work longer and want to be paid. Permanent changes resulting from added or dropped stops, or re-routing should be reported so your schedule can be changed. Show up time is your report time. Pre trip is standard allowance for inspecting and readying your bus. Live Route Time is measured from when you leave the lot, until you make your last drop off. Return time is driving back to the lot. End of shift is your scheduled clock out time.

All routes are subject to change

This is your standard schedule. You must obtain written authorization if you work longer and want to be paid. Permanent changes resulting from added or dropped stops, or re-routing should be reported so your schedule can be changed. Show up time is your report time. Pre trip is standard allowance for inspecting and readying your bus. Live Route Time is measured from when you leave the lot, until you make your last drop off. Return time is driving back to the lot. End of shift is your scheduled clock out time.

All routes are subject to change

This is your standard schedule. You must obtain written authorization if you work longer and want to be paid. Permanent changes resulting from added or dropped stops, or re-routing should be reported so your schedule can be changed. Show up time is your report time. Pre trip is standard allowance for inspecting and readying your bus. Live Route Time is measured from when you leave the lot, until you make your last drop off. Return time is driving back to the lot. End of shift is your scheduled clock out time.

All routes are subject to change

This is your standard schedule. You must obtain written authorization if you work longer and want to be paid. Permanent changes resulting from added or dropped stops, or re-routing should be reported so your schedule can be changed. Show up time is your report time. Pre trip is standard allowance for inspecting and readying your bus. Live Route Time is measured from when you leave the lot, until you make your last drop off. Return time is driving back to the lot. End of shift is your scheduled clock out time.

All routes are subject to change

This is your standard schedule. You must obtain written authorization if you work longer and want to be paid. Permanent changes resulting from added or dropped stops, or re-routing should be reported so your schedule can be changed. Show up time is your report time. Pre trip is standard allowance for inspecting and readying your bus. Live Route Time is measured from when you leave the lot, until you make your last drop off. Return time is driving back to the lot. End of shift is your scheduled clock out time.
